10 months old black bitch. Correct size. Feminine head. Correct bite. Warm expression. A bit low set ears. Acceptable reach of neck. Straight shoulder and upperarm. Even for age she should have a deeper chest. Well ribbed. good bone with good feet. Too long in loin. Correct croup and tailset. But I would like to see her use her tail more happy in the movement. Good angulation in the rear end. But a bit unstable on the movement. Good side gait. A bit loose in elbows in the front. Well presented.
