13 months big strong and masculine dog well developed for his age, I would not want a stronger head than this but it fits him. I would prefer a cleaner lips, good ears, not big, strong neck, quite well set. Enough angulation in front, resonable topline but could be more fluid, very strong well angulated hindquarters + parallel behind and well developed body, he comes into himself in movement, strong and well balanced and using his legs well from all direction. Actually straighter in front moving than standing.
