Very unfocused today. Difficult to assess the movements. He is happy and busy. Corr. shape of body. Good proportions. Strong masc. head with enough length. Big ears are well set. Too rounded in scull for age. Eyes could have better shape and the lips could be tighter. Corr. neck. Enough angulated in front. Naturally the forechest needs time. A bit weak in pasterns. Needs to build up muscles in topline with age, today it's quite curved and the croup is quite steep. Good wide thighs. The hocks need to tighten with age. Same with the feet. Lovely coat. Lovely, friendly behaviour. Lacking the reach and drive today. Moves unparallell (skeidar a islensku) this has to be trained.
