Gives quite immature first impression, a little tall in size at the moment, hopefully he will gr				

tall in size at the moment, hopefully he will grow down with age. Strong masculine head w. corr. expression. Correct ears, strong muzzle, good wide jaws. A bit loose lips. Strong neck, very promising withers for his age. Needs to fill out in forechest. Good upperarm. Exc bone, good feet. Super pasterns. He is a bit flat ribbed at the moment, but has good depth and length. Roaching the topline a bit today, lovely short loin, too falling in croup. He stands very cow hocked today. Coat texture is good but he is not in the best coat. Quite good reach in movement, the drive should be better and longer. He is almost crossing behind. Good parallelity in movement. lovely behaviour.
