A bit compact and weedy today. She is roaching her topline quite a bit. The head has correct, a bit rounded eyes but has a super color. Correct set ears. Correct neckline, quite good withers. She is quite empty in her front today. The ribcage has exc depth and reasonable length. The breastbone should be longer which could affect the underline more positively. Quite steep in croup. Not in the best coat. Well behaved. She has very promising reach in the front, the hind action could be even better. Acceptable tail carriage on the move. Good luck for the future.
