Not so balanced as I would like on the stack and she has a bit too much dewlap. She is bit round in eye, would prefer darker eye color. Pleasing bones. The feet are just ok. Good head planes, good proportion in head. Bit steep in shoulder and upper arm. She has good ribs, short loin, a shade steep in croup. A bit over angulated in hind, her depth is good. Good topline. She needs a bit coat texture, coat is a bit thin. She is a happy mover, happy attitude. Not so tidy going away or coming towards. Keeps a decent topline on the move and she has some drive.
